

Detective Logan - 1-613-2367351 - 23:08:18 26/04/93

Mr. Thomson -

ATT: Nancy Austin

Thanks for your undated letter which I have received today. I told no-one that parents would contact them. There is nothing for Detective Logan to investigate, except that we will not report sensitivities-related instances of child abuse until the Deputy Attorney General, or the Attorney General, or someone else, assures us that the forms of abuse listed in previous correspondence would now be seen as abuse by crowns in the Ottawa Office. (For all this effort we might as well make it crowns across the province.)
